About Us

Since 1991 Advanced Logic Industries (ALI) has been delivering innovative networking and communications technology solutions throughout the Mid Atlantic. Our focus is delivering value-driven technology to support key organizational objectives.

Today we now offer an extended suite of managed and/or hosted IT services. With these services, organizations can quickly implement and expand the IT resources needed to run their organization without the dedicated overhead and start up expense.

Certifications

ALI is known for hiring and retaining great people. We make sure they have the resources and training they need to provide excellence in technology as well as customer support. Customer satisfaction is a critical success factor for ALI. We take it seriously, and we make it a priority. Additionally, our staff maintains a wide variety of IT professional skills certifications, demonstrating a commitment to the highest levels of technical excellence. Some of key industry certifications include:

- VMWare Enterprise Level Partner
