

# NETWORK VULNERABILITY ASSESSMENT SERVICES

## Affordable Compliance & Proactive Assessment

**Want to get a clearer picture of your network's vulnerabilities?  
Is required compliance reporting still a challenge?**

A network breach can be painful, extremely costly and a PR nightmare. Similarly, a systems audit will cost your organization thousands!

Don't wait. Be proactive and identify your risks so you can take action before there's a problem. Benefit from proactive compliance reporting ready for your auditors.

We prepare your HIPAA, SOX, GLBA, or other major compliance reports for you on a monthly basis and alert you when there are issues that need to be addressed. Don't be afraid ... be proactive!

### ALL Network Assessment Services Help Your Organization:

- **Be prepared**  
Your reports are prepared the way the auditors want to see them and we will make sure you know your risks and options to address vulnerabilities.
- **Secure sensitive client data**  
Proactive assessment helps protect your valuable assets.
- **Rely on proven industry leading software**  
We use only the industry's best software to help us prepare your reports. The Department of Defense has been standardized on it for years!
- **Address issues quickly – in advance**  
Update reports helps you be proactive.
- **Reduce operating costs**  
Failure to meet regulatory requirements or network breaches can lead to hefty fines and damaged reputations. Identify & eliminate these risks!
- **Enjoy peace of mind**  
No more worrying about being prepared for an audit. You'll be ready.
