

FLxSTORE

BaaS

COMPLETE DATA PROTECTION FOR RELIABLE BUSINESS CONTINUITY

Relying on an outdated backup solution can be terminal to your organization. The problem of ransomware is pervasive. It is not IF you will experience an incident, it's a matter of WHEN.

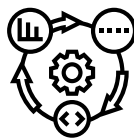

You need a solution that ensures secure retention & fast recovery you can rely upon.

FlxStore delivers complete data protection and control for ALL your data: local, cloud and workstations. It's holistic approach delivers business continuity and helps meet today's higher standards and scrutiny from insurance carriers, clients and supply chain reviews.

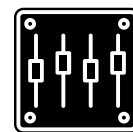

DATA SECURITY

Encryption, cloud replication and available Immutable Storage. All powered by USA based SOC-2 data centers.

BUSINESS CONTINUITY

Protect ALL your systems and recover in as little as 15 minutes.

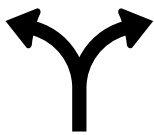

MAINTAIN CONTROL

Maintenance free local server provides direct control powered with Veeam.

FLxSTORE

BaaS

More than 50% of organizations are at significant risk with incomplete or unreliable data backup.

ON+OFF SITE BACKUPS

With our 3-2-1 retention, your data is much more secure.

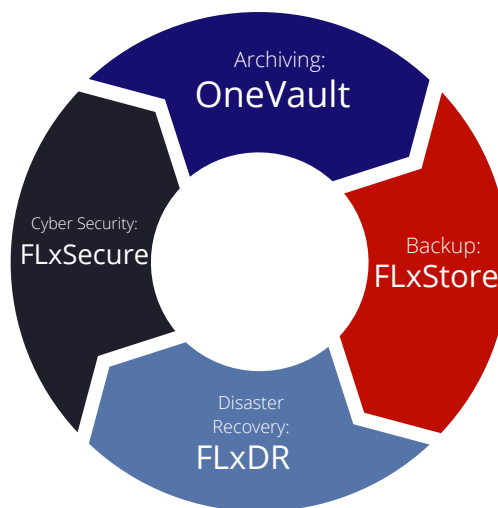

M365 CLOUD DATA TOO

Microsoft doesn't include backup or free extended storage. FLxStore will protect it.

WORKSTATION PROTECTION

The most expensive part of RTO is workstation recovery. FLxStore covers your key workstations too.

FLxStore is just one element in our data protection & preservation options. Bundle & save more!
