

FLxSTORE

HYBRID CLOUD BAAS

A BETTER BACKUP FOR BUSINESS CONTINUITY & PEACE OF MIND

Relying on an outdated backup solution can be terminal to your organization in the face of today's data threats. You need a solution that ensures secure retention & fast recovery.

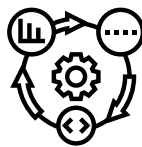

FlxStore securely protects your data in multiple locations with the fastest Return to Operation statistics in the industry. You get complete protection and Veeam's industry-leading features. It's so affordable that you can backup servers *and* key end user computers. One copy of your backup remains on site within an evergreen appliance: plus, another copy is retained offsite in Brush Mountain Data Centers' geo-diversified locations.

**With FLxStore, you get more than backup:
you get real business continuity.**

RANSOMWARE READINESS

With a copy of your data in our data centers, your data is offlimits to ransomware hackers.

BUSINESS CONTINUITY

Be ready for data loss events and recover quickly.

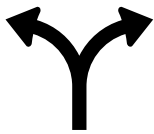

APPLIANCE + CLOUD

The best of both worlds: high speed local backup and a copy in the cloud.

FLxSTORE
