

# IT ALIGNED FOR IMPACT

## About Us

For over 30 years, Advanced Logic has designed, built and supported IT systems to be ready, secure, and aligned to each client's mission. We deliver excellence from the department to the enterprise.

## The Advanced Logic Difference

Why do clients choose us? **Our people.**

We attract, develop and *retain* a team that are highly trusted for their expertise, care and responsiveness.

We also don't let geography hold us back. Our team will always be right where you need us.

### Managed IT Services

Selectable services with predictable performance & price.

### Business Continuity & Security

Cyber security and associated solutions to ensure business continuity.

### Cloud & Data Center Services

Digital transformation powered by private, public or hybrid cloud services.

### Virtual CIO & CISO Services

Fractional access to specialized expertise, advice and guidance.

### Lifecycle Management

Track, manage and optimize software and maintenance agreements.

### IT Procurement

Get the right product for the right price, where and when you need it.

***"The Advanced Logic team is so responsive and helpful. We appreciate the efforts to ensure our IT systems are a steady backbone to our core operations."***
